Color Swatches

Below are the color swatches that the fountains are provided in.

Available Colors: Slate & Rust

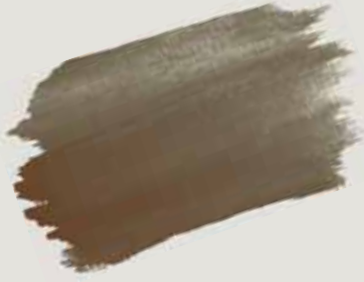

Slate

Rust

GFRC - Glass Fiber

These fountains are crafted from GFRC (Glass Fiber Reinforced Concrete), a specialized material that adds tensile strength while significantly reducing weight. GFRC allows our fountains to maintain the substantial, architectural look and feel of traditional concrete or carved stone without the excessive weight.

In addition to being lighter, GFRC offers greater crack resistance, allows for a thinner yet durable construction, performs well in a variety of weather conditions, and makes fountains easier to ship, handle, and install.

DESIGNED TODAY, CHERISHED FOR GENERATIONS.
